

### 3. Solenoid valve

A solenoid valve is an electromechanically operated valve. We accept OEM and customized products. Our solenoid valves include 2V, 3V, 4V, 5V series, SY series, etc.

Applicable medium: Filtered compressed air  
 Available voltage: DC5V, DC12V, DC24V, AC24V, AC36V, AC110V, AC230V, AC400V  
 Working pressure: 0.15~0.8MPa  
 Working temperature: -5~60

### 3.1 NEW PRODUCTS ★

High quality with more reliable performance and longer worklife.

Sealing parts: Mitsubishi Brand  
 Lubricating grease: Dow Corning Brand
